

AHTISHAM RAZZAQ

FULLSTACK WEB DEVELOPER

Rawalpindi, Punjab, Pakistan | ahtishamabbasi334@gmail.com | +92-311-0506-636 | linkedin.com/in/ahtisham-razzaq | github.com/ahtishamabbasi1468-pixel

PROFESSIONAL SUMMARY

Fullstack Web Developer specializing in React and ASP.NET Core, with production experience shipping multi-role web applications from database schema to polished UI. Strong foundation in RESTful API design, clean architecture, and performance optimization, backed by a Computer Science degree (BS, 2026). Works fast, learns new stacks quickly, and thrives in Agile teams where ownership of a feature end-to-end is expected.

Core Competencies: React.js • ASP.NET Core Web API • Entity Framework • SQL Server • RESTful API Design • Multi-Role Authentication • Agile/Scrum

TECHNICAL SKILLS

Languages: JavaScript, C#, SQL, Python, C++, HTML5/CSS3

Frontend: ReactJS, React Hooks, State Management, Bootstrap, Responsive UI/UX

Backend: ASP.NET Core Web API, ASP.NET MVC, Entity Framework, Node.js

Architecture: MVC, Repository Pattern, Multi-Role Authentication, RESTful API Design

Databases: SQL Server (MSSQL), Entity Framework Core, Database Design

Tools: Git & GitHub, Visual Studio, VS Code, Postman, IIS Server Configuration

PROFESSIONAL EXPERIENCE

Fullstack Web Developer — MoroSoftLab, Rawalpindi, Pakistan

Jan 2026 – Present

- Developed and maintained 5+ production-level web applications using React and ASP.NET Core.
- Designed responsive, intuitive UIs with HTML, CSS, and React, improving overall user engagement.
- Integrated RESTful APIs and implemented data-persistence layers using MongoDB and PostgreSQL.
- Optimized memory usage, background tasks, and application startup performance.

KEY PROJECTS

Repair Your Car — Intelligent Vehicle Assistance Platform | React, ASP.NET Web API, SQL Server, Entity Framework

- Built a full-stack platform connecting users with vehicle experts; implemented multi-role access (Admin, Expert, User) and dynamic troubleshooting workflows with media rendering.

Gym Management System | React, ASP.NET, SQL Server

- Streamlined gym operations with member onboarding, membership tracking, attendance management, and a financial reporting dashboard.

Professional E-Commerce Web Application | React, ASP.NET Web API, MS SQL Server, RESTful APIs

- Developed a full-stack e-commerce solution with secure authentication, a dynamic product catalog, cart management, and an admin dashboard for orders and inventory.
